DEPARTMENT OF BIOMEDICAL AND MOLECULAR SCIENCES
Term Adjunct Teaching Position Available (2021-22)

Applications are invited for a Term Adjunct to:
Develop and teach an on-line format course entitled Global Application of Health Informatics (GLPH 485*)

GLPH 485*
Course Content: 36 Lectures
Course Level: Fourth Year
Location: On-line
Anticipated Enrolment: 36-72

Course Development & Adjunct Teaching Position
The department is looking for an individual to lead the creation and delivery of a new health informatics course targeted at fourth year undergraduate students. This course will focus on the analysis of international electronic healthcare data. Through the course, students will learn the history of data processing, highlighting both transaction and analytical data structures using real examples of global health data. The course will also include the laws and regulations that govern the use of electronic healthcare data, the global business of health information systems, the use of healthcare data as evidence, and the effect of health informatics intervention on health outcomes. It is expected that upon completion of this course students will have a greater understanding of who uses data, the information that can be found in data, and the implications of these findings.

The individual selected for this position will have an M.D. or equivalent in a relevant field, and at least 10 years of consulting experience in applied health informatics, with international experience being essential.

As this course is being offered in an online format, the successful candidate will also: (i) have regular access to high speed internet and a computer that meets current specifications, (ii) be willing to take an active role in delivering the course and communicating regularly with students, (iii) be open to learning how to use new technologies in order to be effective in the virtual environment, (iv) be flexible in terms of availability, which may include offering online office hours via the web at times outside of the regular 9-5 work week, (v) be willing to provide students with timely and constructive feedback on OnQ and (vi) be comfortable with working in a partnership with teaching assistants and others in the delivery of the course.

Individuals interested in applying for this term adjunct teaching position should submit an application by August 20, 2021. The application shall include a complete and current curriculum vitae (CV), any other materials the applicant wishes to submit (such as a teaching dossier, teaching philosophy, teaching assessments), and the names of two referees who may be contacted.

Applications should be submitted to:
Dr. Lynne Postovit, Professor and Head

Department of Biomedical and Molecular Sciences
Botterell Hall, Rm 563
Queen’s University

The University invites applications from all qualified individuals. Queen’s is committed to employment equity and diversity in the workplace and welcomes applications from women, visible minorities, Aboriginal peoples, persons with disabilities, and LGBTQ persons. All qualified candidates are encouraged to apply; however, in accordance with Canadian Immigration requirements, Canadian citizens and permanent
residents of Canada will be given priority. To comply with Federal laws, the University is obliged to gather statistical information about how many applicants for each job vacancy are Canadian citizens / permanent residents of Canada. Applicants need not identify their country of origin or citizenship, however, all applications must include one of the following statements: “I am a Canadian citizen / permanent resident of Canada”; OR, “I am not a Canadian citizen / permanent resident of Canada”. Applications that do not include this information will be deemed incomplete.

Posting Date: July 30, 2021
